

This testimonial was extracted from the Australian Government Department of Education Employment and Workplace Relations LLNP Newsletter (edition May 2010), submitted to them by a prior client of NORTEC's Language Literacy and Numeracy Program.

*Personal Assessment of:
Nortec Numeracy and Literacy Class.
Brush Up Your Skills. Brunswick Heads.*

Last July 2009, I Completed a Certificate iii Retail Management course at Byron Community Collage.

At present I am attending a Certificate iv Financial Services (Accounting) course at Ballina TAFE.

This class at Nortec has enabled me to take on sophisticated courses like this. I came to this class in July 2008 when it started and I could not use a computer. I would never have had the confidence to even think about achieving all the things I have.

Nortec - Brush Up Your Skills, has given me the confidence to take on anything that is put in front of me. For that I would like to thank Cassy and Liz for all the teaching and coaching I have received, to enable me to feel this confident and have a much better chance finding work.

I have had the opportunity to stay on at Nortec and completed five modules of learning strategies and for this I am grateful. Going back to the mathematics and reading comprehension I learnt in my school days, was very refreshing.

Being part of this class from the beginning, I have had the opportunity to meet a mixed culture of people and have been able to learn different things from that as well.

In closing, once again thank you Cassy, Liz and Nortec for helping me brush up my skills.

This class needs to continue. There are people who need the help brushing up their skills, that do not even realise they do. This class does help, I consider myself a fine example.
